The undersigned, Auditors of the Town of South Berwick, have examined the Selectmen and Treasurer's accounts, and find them properly vouched and correctly cast.

All of which is Respectfully submitted.

BARTHOLOMEW WENTWORTH, JOHN HANSCOM, AUDITORS.

SOUTH BERWICK, March 9, 1878.

REPORT

OF THE

SUPERVISOR OF SCHOOLS,

OF THE TOWN OF SO. BERWICK,

FOR THE

YEAR ENDING MARCH 1st, 1878.

The Supervisor of Schools, respectfully presents the following Report in relation to the Schools of the Town of South Berwick:

DISTRICT NO. 1.—HOWARD FURBISH & HORACE J. GOODWIN, Agents.

The Spring Term, of six weeks, was under the charge of H. MARIA JONES, of Eliot. Miss Jones was well qualified, according to law, to teach. The term opened favorably, excepting an indication of a lack of strength in government. We regret to say the term closed without our knowledge, whereby a further report is impracticable.

The Fall Term, of four weeks, was taught by Miss Annie L. Junkins, of York, whose efforts to teach her pupils were uniform and earnest, and those scholars desirous of learning succeeded well in their studies.

Winter Term, of nine weeks, was taught by Miss Marcia A. Goodwin, of this town. This school was visited but once; we were pleased to observe that the scholars were making good progress, and the general appearance gave indications that they were under the instruction of a faithful teacher. Miss Goodwin still retains the reputation of one of our best teachers.

DISTRICT NO. 2,-JAMES PHILPOT, Agent.

This school was under the instruction of MISS MARY E. RAYNES, of this town, an experienced teacher, well qualified for the work of the school room, and whose services were highly profitable to the school. The schoolars evinced a commendable improvement in their studies. At the time of making this report, the school was in session.

DISTRICT NO. 3.—FREEMAN HAM, Agent.

This is one of the largest schools in town; and by no means the easiest to govern and teach. There are scholars enough in this district to make two schools; being ungraded and the scholars of all ages, the teacher cannot do justice to them. The people of district, will do much for the welfare of their children, by making such an addition to the school house as would enable them to have two rooms. We think they would have the hearty approval of all interested in the cause of education.

The Spring Term, 11 weeks, was taught by Mr. W. H. Benson, who iabored earnestly for the improvement of the school. Those scholars who attended regularly, and were diligent, made good progress.

Fall Term, 10 weeks, was taught by Mr. F. McIntire, of York. Mr. McIntire is a worthy young man, well qualified to teach; but the school was not so orderly as might have been wished, owing, perhaps, to the large attendance of scholars of all ages; yet the scholars made some improvement.

The Winter Term, of 13 weeks, was taught by Miss M. Bell Sawyer, of Lee, N. H., with marked success. This school improved greatly under the instruction of Miss Sawyer. Good order and discipline, were one of the marked features of this school. The scholars made a satisfactory progress in their studies.

DISTRICT NO. 4.—GRAMMAR DEPARTMENT,—ISAAC HERSOM, Agent.

The three terms, of 10 weeks each, were taught by Mr. Amos W. Pike, of Rollinsford, N. H. Mr. Pike is a gentleman so long and favorably known to this community, as a teacher of established reputation, that your Supervisor feels it unnecessary to say any thing of the character of a school under his charge; I cannot forbear, however, to take the opportunity to express my gratification at the marked progress of the scholars in their studies, and the amount of practical knowledge they received, particularly in Arithmetic, in which they acquitted themselves with much credit at the final examination. We think both teacher and pupils have good reasons to be satisfied with their year's work.

PRIMARY DEPARTMENT.

The Spring, Fall and Winter Terms, ten week each, were taught by Miss L. J. Pike, of Rollinsford, N. H.

Miss Pike seemed fully to understand how to govern her school judiciously and possess a goodly share of tact and patience, which the welfare of this school seemed to demand, all of the scholars being quite young, and of course not addicted to very studious habits. The scholars made good progress in their studies pursued. This district has been fortunate in securing its teachers this year.

DISTRICT NO. 5,-DR. C. N. GERRISH, Agent.

This school has been under the charge of experienced and faithful teachers the past year, and the good progress the scholars have made is an indication of faithfulness on their part. We observed some very excellent mathematicians in the Grammar Department.

The three terms of the Grammar Department, ten weeks each. were taught by Mr. Robert G. Pike, of Rollinsford, N. H.

Mr. Pike is at home in the school room, and the right man for the place, having a tact to govern, and genus to instruct, evincing that strong interest in his scholars that secured their good will, and awakened within them a desire to improve. The recitations were prompt and the principles involved in the various studies pursued were well understood, being readily applied to the original examples given—an indication of hard study by the scholars, and faithfulness and efficiency on the part of the teacher. We can only hope Mr. Pike will make our town his field of labor for years to come.

Spring Term, 10 weeks, of the Primary Department was taught by Miss Cora A. Greenhaleh, who by her faithful and enthusiastic efforts advanced her scholars rapidly in their studies, and maintained her former reputation of a competent and faithful teacher. We regret to have Miss Greenhalgh resign from our field of labor as teacher, for one of more limited usefulness, but we trust "our loss is her gain."

The Fall and Winter Terms of the Primary, ten weeks each, were taught by Miss Mary O. Fernald, of Salmon Falls, N. H. Miss Fernald is one of our good teachers. The improvement made by the scholars was very satisfactory. The efforts of the teacher were such as to win the confidence of the scholars, and render it easy for her to advance them in their studies, and she gave entire satisfaction to all concerned.

DISTRICT NO. 6,-JOHN DREW, Agent.

Spring Term, 13 weeks: Fall Term, 12weeks, were taught by Miss M. Bell Sawyer, of Lee, N. H.

Few teachers have had the opportunity of getting such a systematic knowledge of teaching as Miss Sawyer, as she is a graduate of one of our Normal Schools and has had a goodly experience, and is a zealous and practical teacher. The order was good and the exercises were of a character indicating faithfulness on the part of the teacher and pupils. We were pleased to notice the fact that a number of the parents and friends were present at the close of each term, thereby exhibiting their interest in the cause of education.

DISTRICT NO. 7,—STEPHEN HARVEY, Agent.

The Spring Term, 8 weeks, Fall Term, 12 weeks, were taught by Miss Sadie Bennett, with good success.

This is a small school; it was orderly, and the scholars made a satisfactory progress in their various studies. This was Miss Bennett's first attempt to teach. Having a tact and natural ability, she will make a good teacher, with a little more experience.

DISTRICT NO. 8.—CHARLES E. THURRELL, Agent.

Spring Term, 4 weeks; Fall Term, 12 weeks, were taught by Mrs. Emily A.Thurrell, of this town. This is Mrs. Thurrell's second year of labor in succession in this district. She labored hard and faithfully for the welfare of her scholars, who seemed to have entire confidence in their teacher, and appreciated her interest in them. This school is small but contains some very good scholars, who acquitted themselves well.

A new and commodious school house is about to be erected, to take the place of the present old dilapidated house.

DISTRICT NO. 9.—ANDREW J. GOODWIN, Agent.

Spring Term, of 6 weeks; Fall Term, of 13 weeks, were taught by Miss Marcia A. Goodwin, of this town.

Miss Goodwin is a natural teacher; exhibiting that suavity of manners which commands involuntary respect of her scholars

The recitations were prompt and correct, which indicated a thorough practical instruction without depending on the mere text-books; showing that it was a profitable school. The closing examination was highly commendable to the teacher and pupils.

DISTRICT NO. 10.—JOHN NASON, Agent.

The Spring Term, of 10 weeks; Fall Term, of 14 weeks; Winter Term, of 7 weeks, were taught by Miss Viola M. Gray, of this town.

Miss Gray is an experienced teacher, well qualified, and her manners are easy in the school room. The two first terms, the scholars made a commendable improvement. Irregularity of attendance seemed to be somewhat the character of the last term, therefore we could not expect to be favored with so great a progress. This school labors under great disadvantage of not having sufficient black boards to accommodate a whole class at a time.

DISTRICT NO. 11,—WILLIAM HOOPER, Agent.

Spring Term of 4 weeks; Fall Term 6 weeks were taught by Miss Flora E. Grant, of Berwick. Miss Grant's first step in teaching is order and discipline, which she enforces with a quiet and distinct voice. Practically she requires the same elements in her scholars, which resulted in this school in breaking up the drawling habit that some children are afflicted with. At the examination the pupils evinced a commendable improvement in their various studies, and the teacher gave entire satisfaction to the district.

The Winter Term of 16 weeks was taught by Miss Annie Wilber, of York. Miss Wilber has had some experience in teaching. Her manners are easy in the school room, and she seemed to command the confidence and respect of her pupils, and they fully appreciated her interest in them, and she labored perseveringly for the good of her scholars. The deportment of this school was above the average.

DISTRICT No. 12.—ALVA CHANEY, Agent.

The Spring Term of ten weeks, and the Fall Term of thirteen weeks were taught by Miss Ida F. Adams, of York. This school was not visited at the close on account of sickness, but on our previous visit we were highly pleased to observe that the scholars were making good progress in their studies. The recitations gave evidence of much tact and faithfulness on the part of the teacher. The deportment of this school ranks with the best.

DISTRICT No. 14.—SEWELL JOY, Agent.

The Spring Term of eight weeks and the Full Term of eleven weeks were taught by Miss S. M. Ayer of Great Falls, N. H.

Miss Ayer possesses a temper and disposition suitable to make her a good teacher of youth, and deserves much credit in governing her school by love and affection instead of threats. This is a small school, but it contains some good scholars, who acquitted themselves with much credit at the examination. The district has been fortunate in the selection of a teacher.

In addition to the detailed report, we would here say that we believe our schools during the past year have accomplished much for the intellectual training of youth. With a few exceptions, the schools have been kept by teachers of experience, who love and have adaptation for this calling. Some of our school houses have been thoroughly repaired the past year, others are about being erected; yet there is room for a greater improvement in this respect.

Many of our school houses are deficient of suitable black-boards. We hope and trust that a matter of so much importance for the wellfare of our children's education will be attended to in due season, by our fellow citizens, for there is no other way in which scholars can learn so rapidly and thoroughly, especially of mathematics, as by performing the examples upon the black-board, and giving a full explanation of them before the class; and in no other way can teachers occupy their time so advantageously as in the use of the black-board when elucidating the principles of scientific studies.

Too much cannot be said of the importance of parents and friends of education visiting the schools often, and taking an active interest in them. This is one of the means that will encourage the scholars and stimulate the teacher in the performance of his duties. We have been highly protected from diseases which have prevailed to an extent so alarming in some of our adjoining towns. During the past year but a few instances of sickness have occurred to affect the attendance at schools.

I hereby extend thanks to my fellow-citizens for their hearty co-operation in the performance of my duties.

Respectfully submitted,

JOHN C. HOOPER, SUPERVISOR OF SCHOOLS.
